

Murder in the first degree

(lyric/music Ruud Weber 01-04-15)

The day that I met you, you knew that there was no way back
I put my heart in your hands and said take it but you gotta understand
You got to sign that deal, you're in for live with me
And if you break my heart it's called murder in the first degree

I gave all my time and my money and so much more
I treaded you good, like I knew that a good man should
Then I took you to places that you never seen
And said you break my heart it's called murder in the first degree

You started sneaking around, telling lies, I could not believe
You thought I was blind like a fool you kept running around on me
Now I'm calling my lawyer just to make you see
That if you break my heart we'll charge murder in the first degree

You'll be doing time don't you worry I've got it all worked out
With my heart as my witness, we'll plead guilty, guilty without a doubt
It'll be a long time before they'll set you free
You'll be doing time for murder in the first degree
Break my heart it's called murder in the first degree
Murder in the first degree
Murder in the first degree
Murder in the first degree
