

No Way out

(lyrics RH Weber music R Weber E Java F de Jong G vd Kolm)

You should have told me is what I keep telling myself
I should have noticed something I don't understand
So here I am alone
In a world so cold
The rain won't stop falling no more

I can't imagine what you've been going through
So dark, I should have been there with you
But can you change how you feel deep inside?
Something so strong
I know that you tried alone

Going out of my mind
Wondering why
Trying to make sense of it all
Something so strong pulling you down
No way out

So this is it
How it feels to never know
You've changed the rules
I can't play anymore

Going out of my mind
Wondering why
Trying to make sense of it all
Something so strong pulling you down
No way out
I've been losing my mind
I've been wondering why
I've been trying to make sense of it all
Something so strong pulling you down
There's no way out
Tell me why?
Somebody tell me why?
