

Life after You

(lyrics RH Weber/music RH Weber, G vd Kolm)

I've been sitting here for so long
Wasting time
Looking out that window
Lost inside my mind
And I thought the world would stop turning
I was wrong

You left me here in pieces
Wondering what to do
Blinded to the world
Nothing felt like it should
The wind kept on blowing
Chasing clouds away

Here I am
On my own
And I can't believe it's true
I never thought I'd make it
Life after you
Life after you

I'm gonna keep on moving
Time is on my side
I've got nothing to loose
Me myself and I
No more waiting for tomorrow
It's right here right now
Here I am
On my own
And I can't believe it's true
I never thought I'd make it
Life after you
Life after you
