

I can't go home

(lyrics: RH Weber/music: E Java/performed by King of the World)

It's midnight in the City and I'm wandering around
It's the same old city but it's different now.
It's not like I remember
It's not how it used to be
It's not the same people
Not the same places
It's not the same for me
I can't go home.
It won't be there.
No it won't be there no more.

It will never change
How I feel tonight
It's a cold cold feeling
No one by my side
I got to keep on moving
I got to be strong
I got to believe
I got to find
A way to carry on
I can't go home
It won't be there.
No it won't be there no more.
I can't go home
It won't be there.
No it won't be there no more.
