

Feel that flame

(lyrics/music Ruud Weber)

I ain't got no money
I ain't got no time
I ain't got nothing but trouble on my mind
I need a little something
I need a little change
I need you closer
To feel that flame

And there ain't nothing out there
That burns like you
Feel that flame
I wanna get close to you

Like a poet needs the pain
I need your fire to feed my flame
When I'm down in solitude
You're the one who knows what to do

You got me in a corner
I can't get away
Feeling good.....you know you can make me feel better
Cause there ain't nothing out there
That burns like you
Feel that flame
I wanna get close to you

There ain't nothing out there
That burns like you
Feel that flame
I wanna get close to you

When there's trouble onside my soul
There's a fire way down below
Waiting for your magic moves
Make me shiver and burn like you

You've got the power
To turn me around
Make it good.....you know you can make me feel better
Cause there ain't nothing out there
That burns like you
Feel that flame
I wanna feel that flame
I wanna feel that flame
I wanna feel that flame
I wanna feel that flame
