

Love don't come from you

(lyrics RH Weber/music RH Weber, S Delbaere, G vd Kolm, F de Jong)

If you want it enough you will get it
That's the way it should be
But this time I misread it all
Now I'm wondering what's good for me

Cause when I look into your eyes I can't get away
From what I know is true
Love don't come from you

What I want I ain't getting
What I need it ain't you
Trying hard to make a wrong go right
Wondering who's fooling who

Cause when I try to get close and feel your love
There's nothing coming through
Love don't come from you
Love don't come from you

I'm packing up for the last time
I'm strolling out that door
Put my life back together
Don't want to hurt no more

Cause when I look into your eyes I can't get away
From what I know is true
Love don't come from you
Love don't come from you
Love don't come from you
Love don't come from you
