

## Run Run Run

(lyrics RH Weber music RH Weber S Delbaere, G vd Kolm, M Pichel)

There's a rumor going around that everybody's talking about  
The girl's back in town and she is looking like a million bucks  
And I knew right there and then they were talking about you  
And my mind started thinking about all the things I wanted to do

You better run, run, run while you can  
Before I put my hands on you  
Cause I'm a loaded gun, here I am  
I'm telling you now run, run, run

All these years I've been waiting for this moment  
Hoping for you to come back and end this misery  
Everybody told me it was time to move on  
But I knew you would come and now you're going around asking for me

You better run, run, run while you can  
Before I put my hands on you  
Cause I'm a loaded gun, here I am  
I'm telling you now run, run, run

You used to fool around with me when I was so much younger.  
Made me feel so stupid made me feel so small  
But things have changed and I'm about to show you  
That I'm a big old boy who knows just what to do

You better run, run, run while you can  
Before I put my hands on you  
Cause I'm a loaded gun, here I am  
I'm telling you now.....you better run, run, run while you can  
Before I put my hands on you  
Cause I'm a loaded gun, here I am  
I'm telling you now...  
Run, run, run  
Run, run, run  
Run, run, run
