

Unsung heroes

(lyric RH Weber music RH Weber, G vd Kolm, Stef Delbaere, M Pichel)

Let's talk about heroes and who they are
Let's talk about all of them not just the stars
I'm looking at people like you and me
I'm looking at all the ones we never see
Ordinary people standing in line
Working hard all their life just to get by
You know what it's like and who they are
Unsung heroes with beat up guitars

Friend of mine passed away just the other day
Still can't believe it he's no longer here to play
Worked hard all his life down to the bone
Left behind a wife and kid, sitting there alone
Tell me who are the heroes at the end of the day
When the prizes are given out to the ones that got away
You know what it's like and who they are
Unsung heroes with beat up guitars

Fame and fortune for the lucky ones
But tell me what's left behind for the unheard songs
Ain't it a shame the way we do
It's time to stand up for people like me and you
Let's turn around now and look the other way
To a world full of heroes, it's time to pay
You know what it's like and who they are
Unsung heroes with beat up guitars
You know what it's like and who they are
Unsung heroes
Unsung heroes
Unsung heroes
Unsung heroes
